Α

When you should use this form

Use this form to register a vehicle under its original registration number when:

- it has never been registered at the DVLA, or
- it has been registered under another age related registration number.

В

Filling in this form

Send the filled in application for your type/make of vehicle to the appropriate authorised owners' club for their recommendation. You will also need to enclose evidence that links your vehicle to the original registration number. Acceptable forms of evidence include:

- the original old style log book (RF60/VE60)
- archive or library records showing the registration number and the chassis number authorised by the archivist, clearly defining where the material was taken from, and
- other pre 1983 documentary evidence linking the chassis and the registration number to the vehicle.

The club may charge a fee for this service but you should not need to join the club. The list of clubs is available in List of Vehicle Owners Club booklet (V765/1) at www.gov.uk/vehicle-registration/old-vehicles

It is normal practice for the owners' club to inspect the vehicle.

С

What you should send with your V765 form

If the vehicle has not been registered at DVLA, send the evidence that links your vehicle to the original registration number you are claiming, a recent photo of the vehicle and a filled in 'Application for a first tax disc and registration for a used motor vehicle' (V55/5) (proof of identification is not needed).

If the vehicle already has an age-related registration number you will not need to fill in a V55/5 form. You will need to send:

- the evidence that links your vehicle to the original registration number you are claiming and
- the vehicle Registration Certificate (V5C) showing the current registration number.

This authentication does not have to be carried out by the same club who are countersigning a V765 application. Any club listed in this booklet can photocopy and verify original 'evidence' that is supporting a V765 application. This will avoid sending valuable historic documentation by post. It doesn't have to be done by the same club who are countersigning a V765 application. Any club signatory in your immediate area can copy and verify your original evidence. Once you have these authenticated copies, you can send the copies to the club who are countersigning your application.

D

Where and how to apply

If the club supports your application they can send your application and certified copies of all supporting documentation direct to us for approval.

Ε

What happens next

If we approve your application we will issue a V5C within six weeks (please allow a little longer before making enquiries). If we do not approve the application we will return your application and we will tell you why. If your vehicle is already registered, we will send you a replacement V5C (and tax disc if necessary).

F

How to tax your vehicle

If your application is successful, on receipt of your V5C you should apply to tax at the Post Office® in the usual way.

The vehicle must not be used or kept on the public road

G

What if my application has been rejected

You can appeal against our decision if there are circumstances that we did not take into account when you applied or you can provide new evidence.

You should send your application to:

until you receive the tax disc.

MASET DVLA Swansea SA99 1ZZ

Transfer of registration number

You cannot transfer a registration number you get as a result of this application. The V5C will show that the number cannot be transferred.
