

Sunbeam Harrington Association

PRESS ANNOUNCEMENT

The Harrington Gathering comes to Wythall on 21st May 2023

The Transport Museum Wythall, Worcs, will be hosting a Harrington Gathering on 21st May 2023. The gathering celebrates the products of coachbuilder Thomas Harrington Ltd, Hove, and their cars and coaches. Harrington was noted for their early use and expertise with glass-fibre fabrication. Apart from the extensive production of coaches, there were as many as 400 Sunbeam conversions and 55 Triumph TR4 [Dove] conversions. It is hoped to resume the 5-year cycle of gatherings as it has been 10 years since the last formal meeting at Amberley in 2012.

All Harrington owners are invited to bring their vehicles to the gathering and the Sunbeam Harrington Association is hoping that the central UK location of the meeting will allow a large number of the UK-owned Sunbeam Harringtons to attend.

5 Sunbeam Harringtons attended the SUNI USA meeting in 2022 and 5 attended the last gathering at Amberley. It is hoped that we can at least match the 9 cars which attended the 1991 Amberley gathering! The Sunbeam models include the original Sunbeam Harrington, the Harrington Le Mans, the Series C, Series D and the Kamm-Tail Le Mans race cars.

Owners can book their attendance and get further details by emailing the organisers at bookings@wythall.org.uk and Harrington.gathering@hotmail.com

The Sunbeam Harrington Association is a voluntary group of enthusiast owners and is supported by the Harrington family, who will be present at the gathering, and by both the Sunbeam Alpine Owners Club and the Sunbeam Alpine Owners Club of America. The Association maintains an online registry of all the known cars, surviving or otherwise.
